

# ARTHRIDOL

## Joints FORMULA

it improves joint function by  
regenerating the articular cartilage

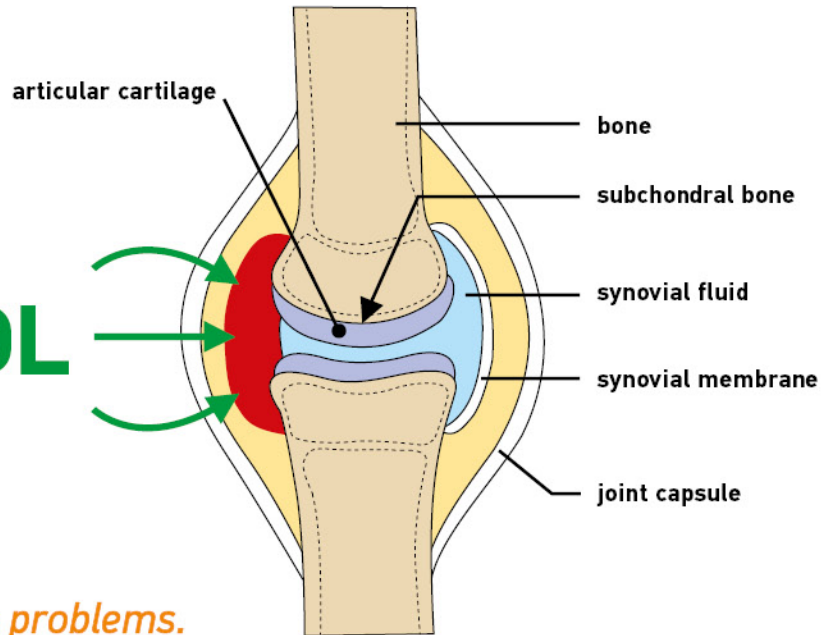

*Dietary Supplement*

**60** tablets of 1200 mg

# ARTHRIDOL

*It does not cause gastric problems.*

## Cartilage Protection:

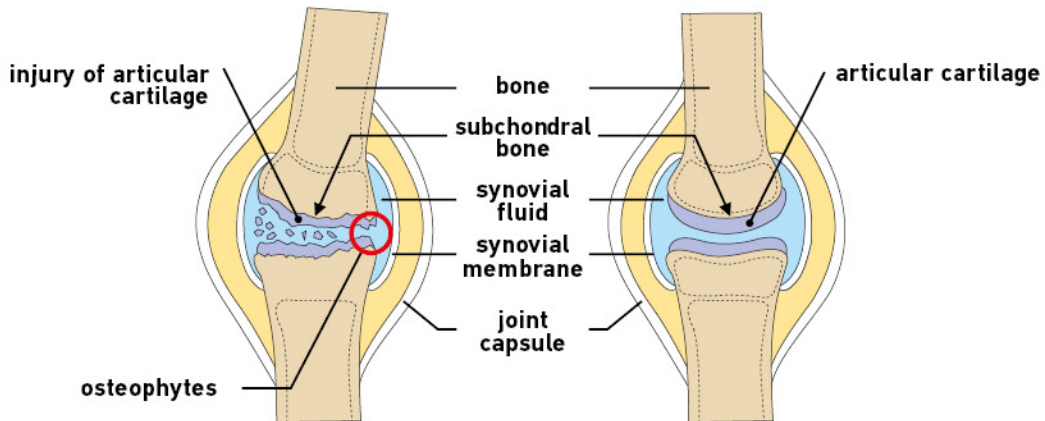

- **Glucosamine sulfate:**
  - Increased bioavailability.
  - **Low Molecular Weight (179)** ▪ Fast integration with the articular cartilage.
  - It is a molecular base for the synthesis of glycosaminoglycan (GAG)
  - It inhibits the release of proteolytic enzymes.
  - It impedes the shrinkage of intra articular cartilage space.

- **Chondroitin sulphate:**
  - It is the most important substance of the cartilage of joints
  - It increases the content of hyaluronic acid within synovial fluid, improving viscosity of the joints.

- **Shark cartilage:**
  - It consists of chondroitin sulfate ester salt and collagen (main component of synovial fluid). It has **lubricating effect**.
- **Type II Collagen:**
  - Increased bio-availability, due to which it is integrated into the cartilage.
- **MSM:**
  - Anti-inflammatory activity.

## Cartilage repair

*It improves Joint Functionality through the regeneration of synovial fluid.*

### RECOMMENDED IN CASES

- **of diminished joint functionality and when regeneration of synovial fluid is required.**

### DOSAGE

- Take 1-2 tablets daily after meals or after consulting your doctor.

COMPOSITION IN ACTIVE INGREDIENTS	Per daily dose (2 tablets)
Glucosamine sulfate	422 - 845 mg
corresponding to glucosamine	250 - 500 mg
Chondroitin sulfate	250 - 500 mg
Methyl-sulfonic methane	200 - 400 mg
Shark cartilage	100 - 200 mg
Undenaturated type II collagen	0,02 - 0,04 mg

**PRECAUTIONS** • Do not exceed the recommended daily dose. • Dietary supplements should not be used as a substitute of a balanced diet. • Keep away from young children. • This product is not intended for the prevention, cure or treatment of a human disease. • Consult with your doctor if you are pregnant, breast-feeding, taking pharmaceutical treatment or having health problems.
