Dietary Supplement

120 capsules

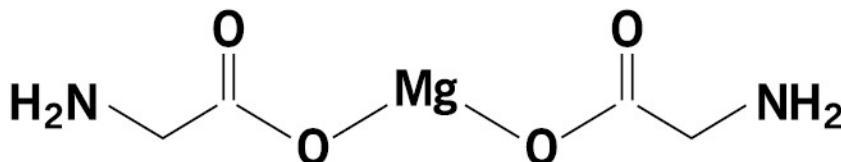

MAGNESIUM FORMULA

Magnesium is **necessary** for the **function of 300 different enzymes**. Researchers have detected 3,751 magnesium binding points with proteins in the human body. **Magnesium** is necessary for the production of **ATP** (the energy molecules of the body). **Magnesium** is also required for the formation of bones or teeth and the relaxation of the blood vessels. Magnesium is also necessary for the proper function of the heart.

MAGNESIUM GLYCINATE

- Magnesium formula contains **magnesium glycinate** which is a chelated form of magnesium that provides the highest levels of absorption and bio-availability and is typically considered to be ideal in cases of deficiency.

COMPOSITION IN ACTIVE INGREDIENTS	Per daily dose (2 caps)	% RDA
Magnesium Formula:	480 mg	128%
Magnesium Glycinate Chelate	40 mg	
Magnesium Citrate	40 mg	
Magnesium Oxide	400 mg	

Note: When certain drugs, such as quinolones (antibiotics) or tetracyclines (antibiotics) or bisphosphonates (for osteoporosis, are administered, magnesium supplements should be taken 2 hours after their intake. If calcium antagonists (for high blood pressure) are administered, consult your doctor, because they can cause blood pressure to drop even lower.

PRECAUTIONS • Do not take the product in the following cases: (1) Hypersensitivity to any of the ingredients. (2) When taking certain medications such as quinolones (antibiotics) or tetracyclines (antibiotics) or bisphosphonates (osteoporosis) magnesium supplements should be taken two hours after taking them. (3) If you are taking calcium channel blockers (for hypertension), consult your doctor, because it may lower blood pressure. • Do not exceed the recommended daily dose. • Dietary supplements should not be used as a substitute of a balanced diet. • Keep away from young children. • This product is not intended for the prevention, cure or treatment of a human disease. • Consult with your doctor if you are pregnant, breast-feeding, taking pharmaceutical treatment or having health problems.

Notification number of the EMEA: 96205/13-12-2013 / Medicines Agency (EMEA) does not serve as a distribution permit from the European Medicines Agency (EMEA)

IT IS RECOMMENDED IN CASES

- of magnesium deficiency or increased need for magnesium.

DOSAGE

- Take 2 capsules a day.
